CONSTRUCTION MATERIALS TRADE FAIR

Construction Materials Trade Fair is organized by MEEI Program in partnership with Turcaf, and CF Istanbul, which has years of experience in international trade fair and successfully organizes its own construction fairs abroad. The aim of the exhibition is to bring together manufacturers of products, technologies, and services in the construction sector with architects, engineers, contractors, implementers, suppliers, and buyers, providing opportunities for new business connections.

TÜRKİYE'S CONSTRUCTION INDUSTRY: A GATEWAY TO NEW OPPORTUNITIES

Türkiye's unique geographic position as a bridge between Africa, Europe, Asia, and the Middle East, combined with its highly skilled workforce, makes it an attractive destination for international companies seeking new business opportunities. Companies can tap into one of the fastest-growing markets, connect with local and regional industry leaders, and showcase their products and technologies to a wide audience of decision-makers. As Türkiye continues to focus on innovation and sustainable development, the Türkiye-Africa Construction Materials Summit/Trade Fair offers a platform for companies to expand their presence in the region and forge lasting business partnerships.
